SAVE GREEN

Join the Salt Lake County
Green Business Program

What is Salt Lake County Green Business?

The Green Business Program is open to any business in Salt Lake County outside Salt Lake City Limits. It will help you save money, make your business more efficient, and benefit the environment by providing FREE assistance in the following areas:

Water Conservation
Energy Efficiency
Pollution Prevention
Recycling
Overall Sustainability

Benefits

Save money: one local business plans to save \$50,000 this year by installing fluorescent warehouse lights

Gain recognition:

- Free water- and energy-saving pre-rinse dishwashing sprayer (can save up to \$1300 and 90,000 gallons of water in first year of use)
- Advertise in the ReDirect Guide and get a 10% Certified Green Business discount, at 801-994-1844 or redirectguide.com
- Free Salt Lake County Green logo window sticker
- Use of the logo for marketing purposes
- Free listing on the Green Business website

Green Business Tips

Replace incandescent bulbs with compact fluorescent.

Use inexpensive motion sensors to control lighting in restrooms and storerooms and start saving money fast.

Install water and energy-saving sink aerators that have a return-on-investment of just a few weeks.

Start using recycled paper products, including printer paper and paper towels, and see how cheap they really are.

Switching to low-cost 'green' cleaners helps safeguard precious water resources and protects employees from harsh chemicals.

Simply starting a recycling program including cardboard can save money on regular trash hauling fees.
